[The Second Thoughts of an Idle Fellow](#) May 02 2020 This early work by Jerome K. Jerome was originally published in 1898 and we are now republishing it with a brand new introductory biography. 'The Second Thoughts of an Idle Fellow' is a collection of humorous essays with a philosophical tone about the value of things and the decisions we make. Jerome Klapka Jerome was born in Walsall, England in 1859. Both his parents died while he was in his early teens, and he was forced to quit school to support himself. In 1889, Jerome published his most successful and best-remembered work, 'Three Men in a Boat'. Featuring himself and two of his friends encountering humorous situations while floating down the Thames in a small boat, the book was an instant success, and has never been out of print. In fact, its popularity was such that the number of registered Thames boats went up fifty percent in the year following its publication.

Thoughts of Leaving Sep 25 2019 Tess took flight, pursuing her promise to marry a Brazilian exchange student. As she traveled across the continents, she grappled with love and darkness. She looked up at the full moon, gazed at the twinkling stars, and listened, immersing herself in the voices that surrounded her. If only she had tried harder to say the words. Her silence became a distant echo. The softness of his lips was replaced by the black and white images of her past. She tried to look beyond the puffy clouds in the sky, but found herself staring at the memory of Andy Warhol's pop art, a simple can of Campbell's tomato soup. Tess clings to optimism and inner strength, which guides her to an insatiable desire to fly. The seagulls above, the sparkle of the San Francisco Bay, and the surrounding hills of Oakland, California, set the stage for Tess Hamilton's journey. And Thoughts of Leaving become her only friend. This book is based on a true story and will take the reader through a time and place where youth and love are sought and not always found as expected.

Thoughts of an American Taxpayer Sep 17 2021 "Government is not a solution to our problem; government is the problem." —President Ronald Reagan Looking all around us, it is evident that the United States of America is heading down a course of economic, financial, and social ruin thanks, in most part, to an irresponsible and careless government. Author G. Williamson, through his passionate writing, shows us why he believes that our out-of-control government no longer cares about our Constitution, economy, businesses, or families. It is a government ruled not by the people but by progressive reformers who seek to place restrictions on our individual freedoms. Through his powerful words, G. Williamson suggest that the key to turning around this unrestrained government is to understand the reasons for its malfunction. From bailouts, to the economy and jobs, to foreign policy, to our tax system, he effectively informs us of the self-destructive and risky path our government is leading us down. He also describes what we as American citizens can do to reverse this dangerous and precarious direction in which our country is heading. Don't be left in the dark about the issues in our country any longer. Pick up this motivational and encouraging book today and delve into the Thoughts of an American Taxpayer. G. Williamson graduated from Southeast Missouri State in Cape Girardeau, Missouri, with a Bachelor of Science in Business Administration. Although he grew up in the Midwest, he currently resides outside of Houston.

Collective Thoughts of an Angry Black Teenager: The Uncontrolled Thoughts Apr 12 2021

THE BOOK OF RULES: THOUGHTS OF AN AWAKENED BLACK MAN Mar 31 2020 Western History has pretended and made an effort to prove in modern times that black people, Africans or people of African descent have never been great thinkers, philosophers, artists or writers. That effort of racism in history has created a total ignorance of reality and many truths have died in oblivion. Racism, that dying disease is still very much alive in many countries, where people of African and African descent are being murdered, mistreated and whose lives are being torn apart in the very countries and lands that their ancestors built. It is even funny to want to defend racism, especially in a world where a large part of the world's population has not been allowed to speak, to live, to feel oppressed by a large minority that pretends to be the majority. It is a very hard reality that racists cannot easily understand, but perhaps their descendants can, because they are responsible for much evil, and have destroyed the natural evolution of the world for several centuries. For the last four hundred years, they have precisely denied blacks the right to study, to read or to express their intellectuality. In the United States of America, black men and women, fathers and mothers, young men and women, boys and girls were lynched and murdered for the mere fact of having a book or reading a book. Now in this world in which truth is more tolerable than in other times, and thinking is no longer a problem for the masses; now that it is easier to tell the truth because the world has learned to understand each other without dogmas, in these times so different but at the same time unique; now that the world is beginning to wake up from a great sleep, now comes into your hands this book, The Book of Rules: Thoughts of An Awakened Black Man. Thanks for Reading this lines. Javier Clemente Engonga,

The Idle Thoughts of an Idle Fellow Sep 05 2020 Now, this is a subject on which I flatter myself I really am au fait. The gentleman who, when I was young, bathed me at wisdom's font for nine guineas a term-no extras-used to say he never knew a boy who could do less work in more time; and I remember my poor grandmother once incidentally observing, in the course of an instruction upon the use of the Prayer-book, that it was highly improbable that I should ever do much that I ought not to do, but that she felt convinced beyond a doubt that I should leave undone pretty well everything that I ought to do. I am afraid I have somewhat belied half the dear old lady's prophecy. Heaven help me! I have done a good many things that I ought not to have done, in spite of my laziness. But I have fully confirmed the accuracy of her judgment so far as neglecting much that I ought not to have neglected is concerned. Idling always has been my strong point. I take no credit to myself in the matter-it is a gift. Few possess it. There are plenty of lazy people and plenty of slow-coaches, but a genuine idler is a rarity. He is not a man who slouches about with his hands in his pockets. On the contrary, his most startling characteristic is that he is always intensely busy.

"Little" Thoughts for the Day Feb 20 2022 A book of daily spiritual encouragement for elementary school children, written by a dedicated Christian educator. As a principal at a Christian elementary school, Joyce O'Bryant would start each morning by greeting her students over the intercom with a prayer and an inspiring thought for the day. Those thoughts and prayers became the basis for this book: a source of Christian encouragement and motivation aimed at pre-school to fifth grade students, speaking to the issues many students deal with on a daily basis throughout the school year. "Little" Thoughts for the Day can be used by elementary administrators and teachers to help students start their days with uplifting thoughts, or by parents who wish to share the thoughts with their children before they leave for school each day. Formatted according to the school year calendar, "Little" Thoughts for the Day includes thoughts relating to various holidays and school activities that make a "big" difference for their young ones.

The Memorable Thoughts of Socrates Jan 22 2022 Xenophon gives us an alternative to Plato's accounts of the lessons of Socrates. As you probably know if you are reading this, Socrates left nothing behind by way of written teachings. All we know of the great philosopher's teachings come from the accounts of his students. Xenophon's version (Memorabilia of Socrates) is stylistically different from Plato's dialogues(e.g. Euthyphro, Apology, Crito, and Phaedo), though Socrates' wisdom and method (questioning) remain consistent.

The Secret Thoughts of an Unlikely Convert Dec 21 2021 "Rosaria, by the standards of many, was living a very good life. She had a tenured position at a large university in a field for which she cared deeply. She owned two homes with her partner, in which they provided hospitality to students and activists that were looking to make a difference in the world. In the community, Rosaria was involved in volunteer work. At the university,

she was a respected advisor of students and her department's curriculum. And then, in her late 30s, Rosaria encountered something that turned her world upside down -- the idea that Christianity, a religion that she had regarded as problematic and sometimes downright damaging, might be right about who God was. That idea seemed to fly in the face of the people and causes that she most loved. What follows is a story of what she describes as a train wreck at the hand of the supernatural. These are her secret thoughts about those events, written as only a reflective English professor could."--Back cover.

Collective Thoughts of an Angry Black Teenager: Rage Revisited Feb 29 2020

Sought Thoughts Jul 24 2019 For years, Earl Patterson was his own worst enemy. Though he was able to overcome numerous obstacles in life and maintain a high opinion of himself, when it came to playing football, rocking rhymes, and excelling in school, he tricked himself into believing that mediocrity was OK, and bullied himself into looking at the world through a warped lens set to someone else's view of the world. It wasn't until later in life that Patterson was able to correct his vision of the world, and of himself, and approach life's challenges as paradigm shifts that can ultimately make or break us in the end. Choosing the former approach, and calling upon his years of experience as the leader of a rap/rock group, Patterson set down his life experiences in poetry, to help others overcome obstacles and inspire them to stop bullying themselves. The poems that comprise this compelling collection are honest, raw, and real, and they flow together seamlessly to deliver both a highly personal story and a set of universal truths that will comfort readers and give them a sense of freedom, encouragement, and hope. Poignant, powerful, and profound, *Sought Thoughts* is a must-read for people who want to expand their horizons through candor and rhyme.
