[The Startup Owner's Manual](#) Jul 07 2020 More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you: • Avoid the 9 deadly sins that destroy startups' chances for success • Use the Customer Development method to bring your business idea to life • Incorporate the Business Model Canvas as the organizing principle for startup hypotheses • Identify your customers and determine how to "get, keep and grow" customers profitably • Compute how you'll drive your startup to repeatable, scalable profits. The Startup Owner's Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.

[The Most Famous Car in the World](#) Jun 25 2019 It is difficult now to imagine the impact which the Jaguar E-type had when it was launched back in 1961. When the average saloon had a top speed of around 70mph and most were desperately dull, the E-type was a revelation and the few examples manufactured in '61 were literally mobbed. Pre-empting computer aided design, pre-eminent aerodynamicist Malcolm Sayer uniquely applied complex mathematical formulae to create the stunning E-type shape. Ironically, this intriguing man hated to be called a stylist, yet he designed what is arguably the most beautiful car ever seen. Today, manufacturers build hundreds of prototypes when developing a new car. Jaguar built just a handful of E-types prior to launch. All were scrapped bar one which was registered 9600 HP. This car did extensive high speed testing on the newly opened M1, was the car that launched the E-type at Geneva in '61 and was then, road tested extensively by virtually every newspaper and magazine, was the original, and only (due to a few secret modifications), 150mph E-type. Driven by Stirling Moss amongst others, it had a fascinating early life and a succession of interesting owners. This is the story of the car's life, the people who created and built this car, the subsequent history, its lapse into decay and its magnificent resurrection, written by the world's leading expert and writer on the legendary E-type Jaguar, who also owns 9600 HP.

[E-Type Jaguar Restoration Manual](#) Aug 20 2021 The E-Type Jaguar has been described on countless occasions as one of the most beautiful cars in the world. Over the years it has built a reputation amongst Jaguar enthusiasts and classic car collectors for being the ultimate classic to own. If you are lucky enough to own one and are planning to undertake the restoration work by yourself, this manual will take you through the full nut-and-bolt restoration of a very early example, E-Type Jaguar Chassis No 60. Restoration experts from the world's premier Jaguar restoration company, Classic Motor Cars Ltd, have written each chapter, giving you a first-hand account of the process. Contents: Preparing a workspace and dismantling the vehicle; Restoring and painting the body; Engine, electrics and transmission restoration; Assembly of the sub-assemblies, and final assembly; Trimming; Road testing and the first outing. This comprehensive manual for the complete restoration of an E-Type will be of great interest to motoring enthusiasts and motor mechanics, and is superbly illustrated with 700 colour photographs.

[Jaguar E-type](#) Apr 27 2022 Four decades after its launch, the Jaguar E-type is still at the top of most car enthusiasts' Christmas lists. An enduring example of design and engineering excellence, it is instantly recognisable to people around the world. In production from 1961 to 1974, it was celebrated at the time as the most glamorous sports car of them all and is today one of the best-known icons of the '60s. If ever there was a deserving recipient of the title 'Great Car,' it's the classically elegant Jaguar E-type. In this fascinating, extensively illustrated book, Nigel Thorley describes the year by year history and development of the Jaguar E-Type, including anecdotes and curiosities along the way. Together with a sumptuous collection of colour photographs, this adds up to a feast of nostalgia that will delight all admirers of this most sinuous of cats.

*Jaguar E-Type* Dec 24 2021 The aim of this innovative series is to provide modelmakers and car enthusiasts with a new standard of primarily visual reference of both full-size cars and their scale models. Each book contains detailed technical information imparted through drawings and photographs while the meticulously researched full-color profiles provides a complete reference for paint schemes and markings. In addition, every volume of the CarCraft series features summaries of design histories and operational careers, and reviews of available kits. The third book in the new CarCraft series, Jaguar E-Type, frames the legend of what many call the world's most beautiful car design. Sir William Lyons and Malcolm Sayer carved automotive history with this car across its 1960s-1970s incarnations from roadster to coupé amid the fitting of Straight-Six, to V12 engines. With its new definition of sculptural styling, performance, handling and innovative style, the E-Type or XKE series in the USA, created a car of global impact that remains a great classic of all time. Here, experienced automotive writer, and industrial designer, Lance Cole pays tribute to the car in a detailed yet engaging commentary. New photography, the design story, and full coverage of the modeling options in synthetic materials and die cast metals, create a narrative of vital interest.

*They Were Her Property* Apr 15 2021 Winner of the Los Angeles Times Book Prize in History: a bold and searing investigation into the role of white women in the American slave economy "Stunning."—Rebecca Onion, Slate "Makes a vital contribution to our understanding of our past and present."—Parul Sehgal, New York Times "Bracingly revisionist. . . [A] startling corrective."—Nicholas Guyatt, New York Review of Books Bridging women's history, the history of the South, and African American history, this book makes a bold argument about the role of white women in American slavery. Historian Stephanie E. Jones-Rogers draws on a variety of sources to show that slave-owning women were sophisticated economic actors who directly engaged in and benefited from the South's slave market. Because women typically inherited more slaves than land, enslaved people were often their primary source of wealth. Not only did white women often refuse to cede ownership of their slaves to their husbands, they employed management techniques that were as effective and brutal as those used by slave-owning men. White women actively participated in the slave market, profited from it, and used it for economic and social empowerment. By examining the economically entangled lives of enslaved people and slave-owning women, Jones-Rogers presents a narrative that forces us to rethink the economics and social conventions of slaveholding America.

*The All-American Hero and Jaguar's Racing E-Types* Apr 03 2020 First seen by the wider world at the 1961 Geneva Motor Show, the Jaguar E-type redefined perceptions of how a sports car could - and perhaps should - look. No less a figure than Enzo Ferrari is said to have described it as "the most beautiful car in the world". Small wonder that demand swiftly exceeded supply after Jaguar initially laid down plans to build the car in relatively small numbers. It was an instant hit on racing circuits too: little more than a month after the launch, Graham Hill took a roadster to victory on its debut at Oulton Park. Chassis 875027, the focus of this story, was the first E-type campaigned by American racing entrepreneur Briggs Cunningham's famous team and its performances helped persuade Jaguar to use the E-type as the basis for a competition thoroughbred that has become one of the most coveted of all time: the Lightweight The E-type evolved from a distinguished series of Jaguar sports cars that notched up a sequence of victories at Le Mans in the 1950s. The car's development is covered in detail and illustrated with exquisite cutaways. Briggs Cunningham had an interesting tale to tell away from motorsport - as did many of his racing companions. He skippered the winning yacht in the America's Cup; his right-hand man Alfred Momo won the Targa Florio as a co-driver, aged 14, and later climbed onto the wing of an airborne biplane to repair a leaking fuel line. Their contrasting backgrounds are covered in detail. Before aligning with Jaguar, Cunningham harboured hopes of putting together an all-American team capable of winning the Le Mans 24 Hours. His eponymous cars made their mark, without ever quite fulfilling his dream, and feature as part of an engaging wider story. In addition to running some of motorsport's best-known names, including Bruce McLaren, Dan Gurney and Jack Brabham, Cunningham was also associated with several unsung heroes. Here, racers such as John Fitch, Phil Walters and Walt Hansgen receive the credit they deserve. The book is handsomely illustrated with period photographs from some of the world's most respected collections, as well as a gallery of studio photographs showing the car as it is today.

**E-Type Jaguar DIY** Sep 20 2021 The fabulous E-type Jaguar is the sleekest and most beloved sports car ever created. Who wouldn't want one of their own? If you don't have tens of thousands of dollars to drop on a new model, or to have one professionally restored, why not restore one yourself? It's easier than you may think. Author and drama teacher Chris Rooke had no engineering or mechanical training, but he transformed a wreck of a Jaguar into a road burning machine. This is his candid story, and instruction, of how he managed to get it done. Perfect for beginners, E-Type DIY is heavily illustrated, and loaded with practical advice.
