**Birds of Belize** Jan 25 2022 "Fills a major gap in the bird identification literature . . . A must for birders planning a trip to this friendly patch of Central America." —The Curious Naturalist With nearly six hundred identified species of birds—and an average of five "new" species discovered annually—Belize is becoming a birding hotspot for amateur and professional birders from around the globe. Thousands of birders visit the country each year to enjoy Belize's amazing abundance and variety of both temperate and tropical birds in natural habitats that remain largely unspoiled. But until now, despite the growing need for an authoritative identification guide, birders have had to rely on regional field guides that offer only limited information on Belizean birds. *Birds of Belize* provides the first complete guide to the identification of all currently known species—574 in all. The birds are grouped by families, with an introduction to each family that highlights its uniquely identifying characteristics and behaviors. The species accounts include all the details necessary for field identification: scientific and common names, size, plumage features, thorough voice descriptions, habitat, distribution, and status in Belize. Full color, expertly drawn illustrations by noted bird artist Dana Gardner present male and female, juvenile and adult, and basic and alternate plumages to aid visual identification throughout the year, while 234 range maps show the birds' distribution and seasonality in Belize. A comprehensive bibliography completes the volume. "A first-class book that will enable users to identify any bird they encounter in Belize." —Victor Emanuel, President, Victor

**Spiritual Purification in Islam** Mar 27 2022 Purification of the soul is a principle that is central to understanding Islamic spirituality but despite this, relatively little has been written explicitly in the

Islamic tradition regarding this discrete method of spiritual purification. This book examines the work of a scholar of this discipline, al-Hārith al-Muhāsibī, who lived and worked during the classical Islamic period under the Abbāsids. Although al-Muhāsibī was well known for his skills in many disciplines, including the Qur’ān, Prophetic narration and scholastic theology, it is his mastery in the field of Islamic spirituality and moral psychology for which he is best remembered. Assessing the extent to which the political, social and economic factors played a part in his life and work, Gavin Picken provides a comprehensive overview of his work and its great significance in the development of Islamic spirituality. Reconstructing his life in chronological order and providing the most comprehensive appraisal of his works to date, it explores a facet of al-Muhāsibī’s teaching which as yet has not been studied, namely his understanding, concept and methodology regarding the purification of the soul within the Islamic paradigm. As such, it will be of great interest not only to researchers and students of Sufism but also to scholars of comparative spirituality and mysticism.

Righteous Porkchop Nov 03 2022 Asked to head up Robert F. Kennedy Jr.’s environmental organization's "hog campaign," Nicolette Hahn Niman embarked upon a fascinating odyssey through the inner workings of the “factory farm” industry. A searing account of an industry gone awry and one woman’s passionate fight to remedy it, Righteous Porkchop chronicles Niman’s investigation and her determination to organize a national reform movement to fight the shocking practices of industrial animal operations. She offers necessary alternatives, showing how livestock farming can be done in a better way—and she details both why and how to choose meat, poultry, dairy, eggs, and fish from traditionally farmed sources.
