An Inventory of Losses Nov 10 2020 A dazzling book about memory and extinction from the author of *Atlas of Remote Islands* A Publishers Weekly Best Book of the Year A Financial Times Best Book of the Year Winner of the Warwick Prize Winner of the Helen & Kurt Wolff Translator's Prize Longlisted for the International Booker Prize Each disparate object described in this book—a Caspar David Friedrich painting, a species of tiger, a villa in Rome, a Greek love poem, an island in the Pacific—shares a common fate: it no longer exists, except as the dead end of a paper trail. Recalling the works of W. G. Sebald, Bruce Chatwin, or Rebecca Solnit, *An Inventory of Losses* is a beautiful evocation of twelve specific treasures that have been lost to the world forever, and, taken as a whole, opens mesmerizing new vistas of how we can think about extinction and loss. With meticulous research and a vivid awareness of why we should care about these losses, Judith Schalansky, the acclaimed author of *Atlas of Remote Islands*, lets these objects speak for themselves: she ventriloquizes the tone of other sources, burrows into the language of contemporaneous accounts, and deeply interrogates the very notion of memory.

[A Month in the Country](#) Sep 01 2022 In J. L. Carr's deeply charged poetic novel, Tom Birkin, a veteran of the Great War and a broken marriage, arrives in the remote Yorkshire village of Oxbodby where he is to restore a recently discovered medieval mural in the local church. Living in the bell tower, surrounded by the resplendent countryside of high summer, and laboring each day to uncover an anonymous painter's depiction of the apocalypse, Birkin finds that he himself has been restored to a new, and hopeful, attachment to life. But summer ends, and with the work done, Birkin must leave. Now, long after, as he reflects on the passage of time and the power of art, he finds in his memories some consolation for all that has been lost.

The Room Where It Happened Apr 15 2021 As President Trump's National Security Advisor, John Bolton spent many of his 453 days in the room where it happened, and the facts speak for themselves. The result is a White House memoir that is the most comprehensive and substantial account of the Trump Administration, and one of the few to date by a top-level official. With almost daily access to the President, John Bolton has produced a precise rendering of his days in and around the Oval Office. What Bolton saw astonished him: a President for whom getting reelected was the only thing that mattered, even if it meant endangering or weakening the nation. "I am hard-pressed to identify any significant Trump decision during my tenure that wasn't driven by reelection calculations," he writes. In fact, he argues that the House committed impeachment malpractice by keeping their prosecution focused narrowly on Ukraine when Trump's Ukraine-like transgressions existed across the full range of his foreign policy—and Bolton documents exactly what those were, and attempts by him and others in the Administration to raise alarms about them. He shows a President addicted to chaos, who embraced our enemies and spurned our friends, and was deeply suspicious of his own government. In Bolton's telling, all this helped put Trump on the bizarre road to impeachment. "The differences between this presidency and previous ones I had served were stunning," writes Bolton, who worked for Reagan, Bush 41, and Bush 43. He discovered a President who thought foreign policy is like closing a real estate deal—about personal relationships, made-for-TV showmanship, and advancing his own interests. As a result, the US lost an opportunity to confront its deepening threats, and in cases like China, Russia, Iran, and North Korea ended up in a more vulnerable place. Bolton's account starts with his long march to the West Wing as Trump and others woo him for the National Security job. The minute he lands, he has to deal with Syria's chemical attack on the city of Douma, and the crises after that never stop. As he writes in the opening pages, "If you don't like turmoil, uncertainty, and risk—all the while being constantly overwhelmed with information, decisions to be made, and sheer amount of work—and enlivened by international and domestic personality and ego conflicts beyond description, try something else." The turmoil, conflicts, and egos are all there—from the upheaval in Venezuela, to the erratic and manipulative moves of North Korea's Kim Jong Un, to the showdowns at the G7 summits, the calculated warmongering by Iran, the crazy plan to bring the Taliban to Camp David, and the placating of an authoritarian China that ultimately exposed the world to its lethal lies. But this seasoned public servant also has a great eye for the Washington inside game, and his story is full of wit and wry humor about how he saw it played.

Writing Book Reviews Jun 25 2019 Complete revision of the author's "Book reviewing", originally published in 1945.

Book of Abraham Apologetics: A Review and Critique Sep 28 2019 Said to have been dictated by Joseph Smith as a translation of an ancient Egyptian scroll purchased in Kirtland, Ohio, in 1835, the Book of Abraham may be Mormonism's most controversial scripture. Decades of impassioned discussion began when about a dozen fragments of Smith's Egyptian papyri, including a facsimile from the Book of Abraham, were found in the New York Metropolitan Museum in 1966. The discovery solved a mystery about the origin of the Egyptian characters that appear in the various manuscript copies of the Book of Abraham from 1835, reproduced from one of the fragments. Some LDS scholars devised arguments to explain what seemed to be clear evidence of Smith's inability to translate Egyptian. In this book, Dan Vogel not only highlights the problems with these apologetic arguments but explains the underlying source documents in revealing detail and clarity.

The Nest Jun 05 2020 A warm, funny and acutely perceptive debut novel about four adult siblings and the fate of the shared inheritance that has shaped their choices and their lives. Every family has its problems. But even among the most troubled, the Plumb family stands out as spectacularly dysfunctional. Years of simmering tensions finally reach a breaking point on an unseasonably cold afternoon in New York City as Melody, Beatrice, and Jack Plumb gather to confront their charismatic and reckless older brother, Leo, freshly released from rehab. Months earlier, an inebriated Leo got behind the wheel of a car with a nineteen-year-old waitress as his passenger. The ensuing accident has endangered the Plumbs' joint trust fund, "The Nest," which they are months away from finally receiving. Meant by their deceased father to be a modest mid-life supplement, the Plumb siblings have watched The Nest's value soar along with the stock market and have been counting on the money to solve a number of self-inflicted problems. Melody, a wife and mother in an upscale suburb, has an unwieldy mortgage and looming college tuition for her twin teenage daughters. Jack, an antiques dealer, has secretly borrowed against the beach cottage he shares with his husband, Walker, to keep his store open. And Bea, a once-promising short-story writer, just can't seem to finish her overdue novel. Can Leo rescue his siblings and, by extension, the people they love? Or will everyone need to reimagine the futures they've envisioned? Brought together as never before, Leo, Melody, Jack, and Beatrice must grapple with old resentments, present-day truths, and the significant emotional and financial toll of the accident, as well as finally acknowledge the choices they have made in their own lives. This is a story about the power of family, the possibilities of friendship, the ways we depend upon one another and the ways we let one another down. In this tender, entertaining, and deftly written debut, Cynthia D'Aprix Sweeney brings a remarkable cast of characters to life to illuminate what money does to relationships, what happens to our ambitions over the course of time, and the fraught yet unbreakable ties we share with those we love.

With their matchless talent as storytellers and illustrators, the d'Aulaires bring to life the weird and wonderful world of Norse mythology.

Let the Lord Sort Them Nov 22 2021 NEW YORK TIMES EDITORS' CHOICE • A deeply reported, searingly honest portrait of the death penalty in Texas—and what it tells us about crime and punishment in America "If you're one of those people who despair that nothing changes, and dream that something can, this is a story of how it does."—Anand Giridharadas, The New York Times Book Review WINNER OF THE J. ANTHONY LUKAS AWARD In 1972, the United States Supreme Court made a surprising ruling: the country's death penalty system violated the Constitution. The backlash was swift, especially in Texas, where executions were considered part of the cultural fabric, and a dark history of lynching was masked by gauzy visions of a tough-on-crime frontier. When executions resumed, Texas quickly became the nationwide leader in carrying out the punishment. Then, amid a larger wave of criminal justice reform, came the death penalty's decline, a trend so durable that even in Texas the punishment appears again close to extinction. In *Let the Lord Sort Them*, Maurice Chammah charts the rise and fall of capital punishment through the eyes of those it touched. We meet Elsa Alcala, the orphaned daughter of a Mexican American family who found her calling as a prosecutor in the nation's death penalty capital, before becoming a judge on the state's highest court. We meet Danalynn Recer, a lawyer who became obsessively devoted to unearthing the life stories of men who committed terrible crimes, and fought for mercy in courtrooms across the state. We meet death row prisoners—many of them once-famous figures like Henry Lee Lucas, Gary Graham, and Karla Faye Tucker—along with their families and the families of their victims. And we meet the executioners, who struggle openly with what society has asked them to do. In tracing these interconnected lives against the rise of mass incarceration in Texas and the country as a whole, Chammah explores what the persistence of the death penalty tells us about forgiveness and retribution, fairness and justice, history and myth. Written with intimacy and grace, *Let the Lord Sort Them* is the definitive portrait of a particularly American institution.

Counting Descent Jul 31 2022 Black Harvard Doctorate in Poetics launches poetry that explores modern blackness. Clint Smith's debut poetry collection, *Counting Descent*, is a coming of age story that seeks to complicate our conception of lineage and tradition. Smith explores the cognitive dissonance that results from belonging to a community that unapologetically celebrates black humanity while living in a world that often renders blackness a caricature of fear. His poems move fluidly across personal and political histories, all the while reflecting on the social construction of our lived experiences. Smith brings the reader on a powerful journey forcing us to reflect on all that we learn growing up, and all that we seek to unlearn moving forward. - Winner, 2017 Black Caucus of the American Library Association Literary Award - Finalist, 2017 NAACP Image Awards - 2017 'One Book One New Orleans' Book Selection

Hot Milk Oct 10 2020 A New York Times Notable Book of the Year. Shortlisted for the 2016 Man Booker Prize, *Hot Milk* moves "gracefully among pathos, danger, and humor†? (The New York Times). I have been sleuthing my mother's symptoms for as long as I can remember. If I see myself as an unwilling detective with a desire for justice, is her illness an unsolved

crime? If so, who is the villain and who is the victim? Sofia, a young anthropologist, has spent much of her life trying to solve the mystery of her mother's unexplainable illness. She is frustrated with Rose and her constant complaints, but utterly relieved to be called to abandon her own disappointing fledgling adult life. She and her mother travel to the searing, arid coast of southern Spain to see a famous consultant--their very last chance--in the hope that he might cure her unpredictable limb paralysis. But Dr. Gomez has strange methods that seem to have little to do with physical medicine, and as the treatment progresses, Sofia's mother's illness becomes increasingly baffling. Sofia's role as detective--tracking her mother's symptoms in an attempt to find the secret motivation for her pain--deepens as she discovers her own desires in this transient desert community. *Hot Milk* is a profound exploration of the sting of sexuality, of unspoken female rage, of myth and modernity, the lure of hypochondria and big pharma, and, above all, the value of experimenting with life; of being curious, bewildered, and vitally alive to the world.

Caste (Oprah's Book Club) Nov 30 2019 #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, *The New York Times* The Pulitzer Prize–winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. NAMED THE #1 NONFICTION BOOK OF THE YEAR BY TIME, ONE OF THE TEN BEST BOOKS OF THE YEAR BY People • The Washington Post • Publishers Weekly AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • NPR • Bloomberg • Christian Science Monitor • New York Post • The New York Public Library • Fortune • Smithsonian Magazine • Marie Claire • Town & Country • Slate • Library Journal • Kirkus Reviews • LibraryReads • PopMatters Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

The Boy in the Field Feb 23 2022 A New York Times Notable Book of the Year | An O Magazine Best Book of the Year The New York Times bestselling author of *The Flight of Gemma Hardy* delivers another “luminous, unforgettable, and perfectly rendered” (Dennis Lehane) novel—a poignant and probing psychological drama that follows the lives of three siblings in the wake of a violent crime. One September afternoon in 1999, teenagers Matthew, Zoe, and Duncan Lang are walking home from school when they discover a boy lying in a field, bloody and unconscious. Thanks to their intervention, the boy’s life is saved. In the aftermath, all three siblings are irrevocably changed. Matthew, the oldest, becomes obsessed with tracking down the assailant, secretly searching the local town with the victim’s brother. Zoe wanders the streets of Oxford, looking at men, and one of them, a visiting American graduate student, looks back. Duncan, the youngest, who has seldom thought about being adopted, suddenly decides he wants to find his birth mother. Overshadowing all three is the awareness that something is amiss in their parents’ marriage. Over the course of the autumn, as each of the siblings confronts the complications and contradictions of their approaching adulthood, they find themselves at once drawn together and driven apart. Written with the deceptive simplicity and power of a fable, *The Boy in the Field* showcases Margot Livesey’s unmatched ability to “tell her tale masterfully, with intelligence, tenderness, and a shrewd understanding of all our mercurial human impulses” (Lily King, author of *Euphoria*).

The Peregrine Jul 07 2020 This extraordinary, poetic portrait of two peregrine falcons is one of the most beloved works of nature writing ever published. From fall to spring, J.A. Baker set out to track the daily comings and goings of a pair of peregrine falcons across the flat fen lands of eastern England. He followed the birds obsessively, observing them in the air and on the ground, in pursuit of their prey, making a kill, eating, and at rest, activities he describes with an extraordinary fusion of precision and poetry. And as he continued his mysterious private quest, his sense of human self slowly dissolved, to be replaced with the alien and implacable consciousness of a hawk. It is this extraordinary metamorphosis, magical and terrifying, that these beautifully written pages record.

In The Garden of Beasts Jul 27 2019 'A compelling tale... a narrative that makes such a brave effort to see history as it evolves and not as it becomes.' SPECTATOR Suffused with the tense atmosphere of the times, and with brilliant portraits of Hitler, Goebbels, Goering and Himmler amongst others, Erik Larson's new book sheds unique light on events as they unfold, resulting in an unforgettable, addictively readable work of narrative history. Berlin, 1933. William E. Dodd, a mild-mannered academic from Chicago, has to his own and everyone else's surprise, become America's first ambassador to Hitler's Germany, in a year that proves to be a turning point in history. Dodd and his family, notably his vivacious daughter, Martha, observe at first-hand the many changes - some subtle, some disturbing, and some horrifically violent - that signal Hitler's consolidation of power. Dodd has little choice but to associate with key figures in the Nazi party, his increasingly concerned cables make little impact on an indifferent U.S. State Department, while Martha is drawn to the Nazis and their vision of a 'New Germany' and has a succession of affairs with senior party players, including first chief of the Gestapo, Rudolf Diels. But as the year darkens, Dodd and his daughter find their lives transformed and any last illusion they might have about Hitler are shattered by the violence of the 'Night of the Long Knives' in the summer of 1934 that established him as supreme dictator . . .

The Whites of Their Eyes Mar 03 2020 Americans have always put the past to political ends. The Union laid claim to the Revolution--so did the Confederacy. Civil rights leaders said they were the true sons of liberty--so did Southern segregationists. This book tells the story of the centuries-long struggle over the meaning of the nation's founding, including the battle waged by the Tea Party, Glenn Beck, Sarah Palin, and evangelical Christians to "take back America." Jill Lepore, Harvard historian and New Yorker staff writer, offers a careful and concerned look at American history according to the far

right, from the "rant heard round the world," which launched the Tea Party, to the Texas School Board's adoption of a social-studies curriculum that teaches that the United States was established as a Christian nation. Along the way, she provides rare insight into the eighteenth-century struggle for independence—a history of the Revolution, from the archives. Lepore traces the roots of the far right's reactionary history to the bicentennial in the 1970s, when no one could agree on what story a divided nation should tell about its unruly beginnings. Behind the Tea Party's Revolution, she argues, lies a nostalgic and even heartbreaking yearning for an imagined past—a time less troubled by ambiguity, strife, and uncertainty—a yearning for an America that never was. *The Whites of Their Eyes* reveals that the far right has embraced a narrative about America's founding that is not only a fable but is also, finally, a variety of fundamentalism—anti-intellectual, antihistorical, and dangerously antipluralist. In a new afterword, Lepore addresses both the recent shift in Tea Party rhetoric from the Revolution to the Constitution and the diminished role of scholars as political commentators over the last half century of public debate.

When Eldon the butler dies, Raunce—the head footman—is assigned his job. The other servants are taken aback by this irregular promotion, but lovely young Edith, a recent hire, is quite attracted to the older Raunce and a flirtation begins. And it is Edith who discovers Mrs. Tennant's daughter-in-law, whose husband is fighting at the front, in bed with a neighbor one morning, scandalizing the whole household. When the Tennants depart for England, Raunce is left in charge of the house and struggles to control its disputatious inhabitants as well as to secure the love of Edith, especially after a precious family jewel disappears. In *Loving*, Henry Green explores the deeply precarious nature of ordinary life against the background of the larger world at war.
