The Colored Patriots of the American Revolution Dec 21 2021 In "Colored Patriots of the American Revolution," William Cooper Nell documents the important and oft-forgotten contributions of black Americans who fought during the Revolutionary War. While most history books focus on white heroes such as George Washington, Paul Revere, and Ethan Allen, "Colored Patriots" focuses on the black Americans who fought bravely and heroically for freedom and independence in the American Revolution. When the Revolution started, the American colonies had a population of about two and a half million people, one fifth of whom were black, mostly slaves. The courage and bravery demonstrated by blacks during the Revolution influenced legal decisions in the northern states to abolish slavery, leading to freedom for about 60,000 slaves. Yet for the most part, acts of heroism and the contributions of blacks during the Revolution either went unrecorded or were not widely publicized. "Colored Patriots of the American Revolution" is organized by state, with many historical names mentioned and an account given of the African American involvement state-by-state.

Includes: Habeas Corpus reform; justice for victims (mandatory victim restitution, assistance to victims of terrorism); international terrorism prohibitions; terrorist and criminal alien removal and exclusion (asylum procedures); nuclear, biological, and chemical weapons restrictions; implementation of plastic explosives convention; criminal law modifications to counter terrorism (crimes and penalties, criminal procedures); and assistance to law enforcement.

**Their Eyes Were Watching God** Aug 17 2021 One of the most important and enduring books of the twentieth century, *Their Eyes Were Watching God* brings to life a Southern love story with the wit and pathos found only in the writing of Zora Neale Hurston. Out of print for almost thirty years—due largely to initial audiences' rejection of its strong black female protagonist—Hurston's classic has since its 1978 reissue become perhaps the most widely read and highly acclaimed novel in the canon of African-American literature.

*War is a Racket* Mar 12 2021 *War Is a Racket* is a speech and a 1935 short book, by Smedley D. Butler, a retired United States Marine Corps Major General and two-time Medal of Honor recipient. Based on his career military experience, Butler frankly

discusses how business interests commercially benefit (including war profiteering) from warfare. He had been appointed commanding officer of the Gendarmerie during the United States occupation of Haiti, which lasted from 1915 to 1934.

**World History and Geography** Jun 22 2019 This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

**The Reconstruction Era and the Fragility of Democracy** Aug 05 2020 The Reconstruction Era and The Fragility of Democracy uses our pedagogical approach to help students examine how a society rebuilds after extraordinary division and trauma, when the ideals of democracy are most vulnerable. The unit presents educators with materials they need to engage students in a deep study of the pivotal era of American history that followed the Civil War. It provides history teachers with dozens of primary and secondary source documents, close reading exercises, lesson plans, and activity suggestions that will push students both to build a complex understanding of the dilemmas and conflicts Americans faced during Reconstruction and to identify the legacies of this history that extended through the 20th century to the present day. These materials will help students examine closely themes such as historical memory, justice, and civic participation in a democracy. The unit includes a variety of interdisciplinary teaching strategies that reinforce historical and literacy skills."

**The Gettysburg Address** Jan 10 2021 The Gettysburg Address is a speech by U.S. President Abraham Lincoln, one of the best-known in American history. It was delivered by Lincoln during the American Civil War, on the afternoon of Thursday, November 19, 1863, at the dedication of the Soldiers' National Cemetery in Gettysburg, Pennsylvania, four and a half months after the Union armies defeated those of the Confederacy at the Battle of Gettysburg. Abraham Lincoln's carefully crafted address, secondary to other presentations that day, was one of the greatest and most influential statements of national purpose. In

just over two minutes, Lincoln reiterated the principles of human equality espoused by the Declaration of Independence and proclaimed the Civil War as a struggle for the preservation of the Union sundered by the secession crisis, with "a new birth of freedom" that would bring true equality to all of its citizens. Lincoln also redefined the Civil War as a struggle not just for the Union, but also for the principle of human equality. Beginning with the now-iconic phrase "Four score and seven years ago"—referring to the United States Declaration of Independence in 1776—Lincoln examined the founding principles of the United States as stated in the Declaration of Independence. In the context of the Civil War, Lincoln also memorialized the sacrifices of those who gave their lives at Gettysburg and extolled virtues for the listeners (and the nation) to ensure the survival of America's representative democracy: that "government of the people, by the people, for the people, shall not perish from the earth." Despite the speech's prominent place in the history and popular culture of the United States, the exact wording and location of the speech are disputed. The five known manuscripts of the Gettysburg Address in Lincoln's hand differ in a number of details, and also differ from contemporary newspaper reprints of the speech.

**The Last Days of the Renaissance** Dec 29 2019 There is little debate that the Renaissance began at the end of the fourteenth century. Its end, though, is much more difficult to pin down. Here, for the first time, renowned classicist Theodore Rabb defines the changes that marked the shift away from the Renaissance to Modernity, and explains why these changes took place. The European Renaissance is usually characterized by the belief that a distinct antique civilization represented the ideal for all human endeavors. But there were other unities that defined the era: a shift in the role of the aristocracy from a warrior class to a cultural elite, a growth in education, a more thoughtful probing into the sciences, and the use of the arts for nonreligious purposes. By the dawn of the seventeenth century, four developments had swept over the world, altering these unities and ending the Renaissance: a break with the period's obsession with the past, which invited openness to innovation; a quest for central political control to cure increasing instability; a change in direction of people's passion and enthusiasm; and a new commitment to reason. With thoughtful, wide-lens scholarship and close, detailed looks throughout at the significant moments of change, Rabb offers us a radically new understanding of one of the most pivotal shifts in modern history.

*Every Man A King* Feb 08 2021 Huey Long (1893-1935) was one of the most extraordinary American politicians, simultaneously cursed as a dictator and applauded as a benefactor of the masses. A product of the poor north Louisiana hills, he was elected governor of Louisiana in 1928, and proceeded to subjugate the powerful state political hierarchy after narrowly defeating an impeachment attempt. The only Southern popular leader who truly delivered on his promises, he increased the miles of paved roads and number of bridges in Louisiana tenfold and established free night schools and state hospitals, meeting

the huge costs by taxing corporations and issuing bonds. Soon Long had become the absolute ruler of the state, in the process lifting Louisiana from near feudalism into the modern world almost overnight, and inspiring poor whites of the South to a vision of a better life. As Louisiana Senator and one of Roosevelt's most vociferous critics, "The Kingfish," as he called himself, gained a nationwide following, forcing Roosevelt to turn his New Deal significantly to the left. But before he could progress farther, he was assassinated in Baton Rouge in 1935. Long's ultimate ambition, of course, was the presidency, and it was doubtless with this goal in mind that he wrote this spirited and fascinating account of his life, an autobiography every bit as daring and controversial as was The Kingfish himself.

*The Absolutely True Diary of a Part-Time Indian* Feb 29 2020 Bestselling author Sherman Alexie tells the story of Junior, a budding cartoonist growing up on the Spokane Indian Reservation. Determined to take his future into his own hands, Junior leaves his troubled school on the rez to attend an all-white farm town high school where the only other Indian is the school mascot. Heartbreaking, funny, and beautifully written, *The Absolutely True Diary of a Part-Time Indian*, which is based on the author's own experiences, coupled with poignant drawings by Ellen Forney that reflect the character's art, chronicles the contemporary adolescence of one Native American boy as he attempts to break away from the life he was destined to live. With a forward by Markus Zusak, interviews with Sherman Alexie and Ellen Forney, and four-color interior art throughout, this edition is perfect for fans and collectors alike.

**Proceedings of a Workshop on Detering Cyberattacks** Jan 28 2020 In a world of increasing dependence on information technology, the prevention of cyberattacks on a nation's important computer and communications systems and networks is a problem that looms large. Given the demonstrated limitations of passive cybersecurity defense measures, it is natural to consider the possibility that deterrence might play a useful role in preventing cyberattacks against the United States and its vital interests. At the request of the Office of the Director of National Intelligence, the National Research Council undertook a two-phase project aimed to foster a broad, multidisciplinary examination of strategies for deterring cyberattacks on the United States and of

the possible utility of these strategies for the U.S. government. The first phase produced a letter report providing basic information needed to understand the nature of the problem and to articulate important questions that can drive research regarding ways of more effectively preventing, discouraging, and inhibiting hostile activity against important U.S. information systems and networks. The second phase of the project entailed selecting appropriate experts to write papers on questions raised in the letter report. A number of experts, identified by the committee, were commissioned to write these papers under contract with the National Academy of Sciences. Commissioned papers were discussed at a public workshop held June 10-11, 2010, in Washington, D.C., and authors revised their papers after the workshop. Although the authors were selected and the papers reviewed and discussed by the committee, the individually authored papers do not reflect consensus views of the committee, and the reader should view these papers as offering points of departure that can stimulate further work on the topics discussed. The papers presented in this volume are published essentially as received from the authors, with some proofreading corrections made as limited time allowed.

Every Man a King and Share Our Wealth Sep 05 2020 "Every man a king, so there would be no such thing as a man or woman who did not have the necessities of life, who would not be dependent upon the whims of the financial barons for a living." - Share Our Wealth, Huey Long (1934) Every Man a King and Share Our Wealth-Two Huey Long Speeches by extraordinary Louisiana left-wing populist Huey Long includes: - his 1934 radio address announcing the start of his "Share Our Wealth" Movement, promoting greater equality among Americans. By 1935 this movement had 27,000 chapters with 7.5 million members. - Long's Statement on the Share Our Wealth Society in Congress (1935) with proposals, such as that "every family was to be furnished with a homestead allowance of not less than one-third the average family wealth of the country" and "yearly income cannot exceed more than 300 times the size of the average family income." Long's radical agenda as expressed in Every Man a King and Share Our Wealth still offers food for thought for the social-economic debates of the 21st century.

The Experiment Jul 04 2020 For many the Russian Revolution of 1917 was a symbol of hope. In the eyes of its critics, however, Soviet authoritarianism and the horrors of the gulags have led to the revolution becoming synonymous with oppression, threatening to forever taint the very idea of socialism. The experience of Georgia, which declared its independence from Russia in 1918, tells a different story. In this riveting history, Eric Lee explores the little-known saga of the country's experiment in democratic socialism, detailing the epic, turbulent events of this forgotten chapter in revolutionary history. Along the way, we are introduced to a remarkable cast of characters – among them the men and women who strove for a more inclusive vision of socialism that featured multi-party elections, freedom of speech and assembly, a free press and a civil society grounded in trade unions and cooperatives. Though the Georgian Democratic Republic lasted for just three years before it was brutally crushed on the orders of Stalin, it was able to offer, however briefly, a glimpse of a more humane alternative to the Soviet reality that was to come.

**The European Union** Oct 31 2022 The European Union (EU) is a political and economic partnership that represents a unique form of cooperation among sovereign countries. The EU is the latest stage in a process of integration begun after World War II, initially by six Western European countries, to foster interdependence and make another war in Europe unthinkable. The EU currently consists of 28 member states, including most of the countries of Central and Eastern Europe, and has helped to promote peace, stability, and economic prosperity throughout the European continent. The EU has been built through a series of binding treaties. Over the years, EU member states have sought to harmonize laws and adopt common policies on an increasing number of economic, social, and political issues. EU member states share a customs union; a single market in which capital, goods, services, and people move freely; a common trade policy; and a common agricultural policy. Nineteen EU member states use a common currency (the euro), and 22 member states participate in the Schengen area of free movement in which internal border controls have been eliminated. In addition, the EU has been developing a Common Foreign and Security Policy (CFSP), which includes a Common Security and Defense Policy (CSDP), and pursuing cooperation in the area of Justice and Home Affairs (JHA) to forge common internal security measures. Member states work together through several EU institutions to set policy and to promote their collective interests. In recent years, however, the EU has faced a number of internal and external crises. Most notably, in a June 2016 public referendum, voters in the United Kingdom (UK) backed leaving the EU. The pending British exit from the EU (dubbed "Brexit") comes amid multiple other challenges, including the rise of populist and to some extent anti-EU political parties, concerns about democratic backsliding in some member states (including Poland and Hungary), ongoing pressures related to migration, a heightened terrorism threat, and a resurgent Russia. The United States has supported the European integration project since its inception in the 1950s as a means to prevent another catastrophic conflict on the European continent and foster democratic allies and strong trading partners. Today, the United States and the EU have a dynamic political partnership and share a huge trade and investment relationship. Despite periodic tensions in U.S.-EU relations over the years, U.S. and EU policymakers alike have viewed the partnership as serving both sides' overall strategic and economic interests. EU leaders are anxious about the Trump Administration's commitment to the EU project, the transatlantic partnership, and an open international trading system-especially amid the Administration's imposition of tariffs on EU steel and aluminum products since 2018 and the prospects of future auto tariffs. In July 2018, President Trump reportedly called the EU a "foe" on trade but the Administration subsequently sought to de-escalate U.S.-EU tensions and signaled its intention to launch new U.S.-EU trade negotiations. Concerns also linger in Brussels about the implications of the Trump Administration's

"America First" foreign policy and its positions on a range of international issues, including Russia, Iran, the Israeli-Palestinian conflict, climate change, and the role of multilateral institutions. This report serves as a primer on the EU. Despite the UK's vote to leave the EU, the UK remains a full member of the bloc until it officially exits the EU (which is scheduled to occur by October 31, 2019, but may be further delayed). As such, this report largely addresses the EU and its institutions as they currently exist. It also briefly describes U.S.-EU political and economic relations that may be of interest.

**The Invention of Athens** Nov 27 2019 "In *The Invention of Athens*, her first book, Nicole Loraux launched her exploration of Greek - and more particularly Athenian - self-representations: in this case, through the funeral oration. Coordinating past, present, and future generations, the funeral oration emerges in Loraux's account as the state institution and genre through which official memory is performed, cultivated, and transmitted. In her anatomy of the institution and genre of the epitaphics, Loraux illuminates the politics, myths, and gendered discourses and institutions of Antiquity. Loraux shows us again and again how the field of representation, particularly as it emerges in a democratic terrain, is the field of contest. Loraux's work was always concerned with the politics of memory - What shall be remembered? And how? And by whom? And for whom? - the way in which the city represents itself, how it constitutes itself, how it remembers and members itself are among Loraux's central preoccupations, and she makes them ours."--BOOK JACKET.

*State of the Union Addresses* Aug 29 2022 The 1934 State of the Union Address was given by the 32nd president of the United States, Franklin D. Roosevelt. It was the first State of the Union address to be given in January. Excerpt: "Now that we are definitely in the process of recovery, lines have been rightly drawn between those to whom this recovery means a return to old methods—and the number of these people is small—and those for whom recovery means a reform of many old methods, a permanent readjustment of many of our ways of thinking and therefore of many of our social and economic arrangements... "
