The New Testament of our Lord and Saviour  
Jesus Christ Oct 22 2021

**Special Forces Savior** Oct 02 2022 He has to shut down the terrorists or lose everything. Including the woman who's become a target. Omega Sector: Critical Response agent Derek Waterman is hunting some very bad men. After weeks of chasing cold leads, he has found the evidence that could expose the architects of a lethal terrorist bombing. But before Derek can start busting bad guys, he needs help from Dr. Molly Humphries, Omega's lead forensic scientist. Molly works to retrieve the data—and overcome her debilitating crush on the super agent. And Derek carefully suppresses his mutual smoldering attraction, sure that his dark past will drive Molly away. But when Molly's kidnapped, Derek will stop at nothing to save her. Even if a lethal enemy will do everything to keep him from doing so.

**Perilous Options** Oct 29 2019 In the past three decades, the United States government has used special operations repeatedly in an effort to achieve key foreign policy objectives, such as in the overthrow of Fidel Castro in Cuba and the rescuing of American hostages in Iran. Many of these secret missions carried out by highly trained commando forces have failed. In *Perilous Options*, Lucien Vandembroucke examines the use and misuse of such special operations through an in-depth analysis of four operations--the Bay of Pigs invasion, the Sontay raid to rescue POWs in North Vietnam, the Mayaguez operation, and the Iran hostage rescue mission. Drawing extensively on declassified government documents, interviews with key decision makers and participants in these episodes, and other primary material, *Perilous Options* identifies

recurrent problems in the way the United States government has prepared and executed such operations. These recurrent problems, outlined by key participants in these four special operations, include faulty intelligence, poor interagency and interservice cooperation and coordination, inadequate information and advice provided to decisionmakers, wishful thinking on the part of decisionmakers, and overcontrol of mission execution from outside the theater of operations. Vandenbroucke also explores the extent to which recent efforts to revitalize the U.S. operations capability have addressed these problems, identifying additional changes that can improve the government's ability to plan, evaluate, and execute such operations.

*Searching for a Corporate Savior* Sep 01 2022

Corporate CEOs are headline news. Stock prices rise and fall at word of their hiring and firing.

Business media debate their merits and defects as if individual leaders determined the health of the economy. Yet we know surprisingly little about how CEOs are selected and dismissed or about their true power. This is the first book to take us into the often secretive world of the CEO selection process. Rakesh Khurana's findings are surprising and disturbing. In recent years, he shows, corporations have increasingly sought CEOs who are above all else charismatic, whose fame and force of personality impress analysts and the business media, but whose experience and abilities are not necessarily right for companies' specific needs. The labor market for CEOs, Khurana concludes, is far less rational than we might think. Khurana's findings are based on a study of the hiring and firing of CEOs at over 850 of America's largest companies and on extensive interviews with CEOs, corporate board members, and consultants at executive search firms. Written with exceptional clarity and verve, the book explains the basic

mechanics of the selection process and how hiring priorities have changed with the rise of shareholder activism. Khurana argues that the market for CEOs, which we often assume runs on cool calculation and the impersonal forces of supply and demand, is culturally determined and too frequently inefficient. Its emphasis on charisma artificially limits the number of candidates considered, giving them extraordinary leverage to demand high salaries and power. It also raises expectations and increases the chance that a CEO will be fired for failing to meet shareholders' hopes. The result is corporate instability and too little attention to long-term strategy. The book is a major contribution to our understanding of corporate culture and the nature of markets and leadership in general.

[Minesweeper \(Special Forces, Book 2\)](#) Jan 13 2021 "All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews for the World War II series Discover the secret missions behind America's greatest conflicts.Fergus Frew thought he knew what to expect when he signed up with the Navy's demolitions team. But as the Korean War rages on, Fergus and his fellow divers -- AKA "frogmen" -- are tasked with more than just scouting mudflats. Soon they're planting mines. And sabotaging tunnels, bridges... and even fishing nets. Strangest of all, it falls to Fergus to transport a spy into the

country -- and that means traveling far from Navy-controlled waters. But frogmen are amphibious. And Fergus may not realize it, but he's in a position to change the way the whole world thinks about combat. National Book Award finalist Chris Lynch continues his explosive fiction series based on the real-life, top-secret history of US black ops and today's heroic Navy SEALs.

**Saviour Boy** Oct 10 2020 Returning home after my military career came to an end, my best friend Chris needed my help. His little sister, Becca, was in trouble, and I was the only one he could trust. But maybe he shouldn't have because he doesn't know the truth. During my last deployment, Becca had secretly written me letters that made me believe we shared something. Something powerful. We had a connection. But maybe not strong enough because when I returned to Merlot, she was seeing someone else and I was thankful I didn't need to violate the bro code. Chris asked me to protect her in his absence. To handle the guy that was stalking her. The same guy she'd been dating. I did what I had to do to keep her safe and didn't mean to fall in love in the process. Screw the bro code. If everything worked out, she'd be with me when all was said and done, and she would never be scared again.

*Tough Justice: Countdown (Part 8 of 8)* Jun 05 2020 A killer exposed The bomber made a fatal mistake underestimating Special Agent Lara Grant! With countless lives at stake, Lara and the CMU can't keep doubting each other. Taking out this killer before he strikes again is going to require full focus from the entire team. But this case has shaken their faith in each other like never before. As they struggle to rebuild their frayed partnerships, they finally hit paydirt. In the final countdown, their mark has messed up. And as Lara braces for another confrontation with evil, she'll do what it takes to make sure that his first mistake will be his last... Part 8 of 8: an explosive new installment in the thrilling

FBI serial from New York Times bestselling author Carla Cassidy and Tyler Anne Snell, Emmy Curtis and Janie Crouch. Praise for *Special Forces Savior* by Janie Crouch: "Compelling. Crouch doesn't disappoint with another spectacular Intrigue read filled with explosive action and well-developed characters and plot." —RT Book Reviews

**A complete concordance to the holy Scriptures. To which is added, a sketch of the life and character of the author** Jul 19 2021

Gaius Marius Mar 15 2021 Gaius Marius was one of the most remarkable and significant figures of the late Roman Republic. At a time when power tended to be restricted to a clique of influential families, he rose from relatively humble origins to attain the top office of consul. He even went on to hold the post an unprecedented seven times. His political career flourished but was primarily built on military success. First serving in the Numantine War in

Spain, he later rose to high command and brought a long-running war in North Africa to a successful conclusion, bringing the Numidian King Jurgurtha back in chains. His return was timely as northern barbarian tribes threatened Italy and had previously defeated several Roman armies. Marius reformed and retrained the Republic's forces and decisively defeated the invaders that had easily overpowered his predecessors. Marius' subsequent career was primarily that of an elder statesman, but it was dominated by his rivalry with his erstwhile subordinate, Sulla, which ultimately led to the latter's bloody coup. Marius, once hailed as the savior of Rome, eventually became a desperate fugitive, literally fleeing for his life from his pursuers. However, after several harrowing brushes with death, Marius seized an opportunity to return to Rome and mete out justice to his enemies, which tarnished his once-enviable reputation.

### **Unconventional Warfare (Special Forces,**

**Book 1)** Apr 15 2021 Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.

[The Making of a Savior Bodhisattva](#) Feb 11 2021

In modern Chinese Buddhism, Dizang is especially popular as the sovereign of the underworld. Often represented as a monk wearing a royal crown, Dizang helps the deceased faithful navigate the complex underworld bureaucracy, avert the punitive terrors of hell, and arrive at the happy realm of rebirth. The author is concerned with the formative period of this important Buddhist deity, before his underworldly aspect eclipses his connections to other religious expressions and at a time when the art, mythology, practices, and texts of his cult were still replete with possibilities. She begins by problematizing the reigning model of Dizang, one that proposes an evolution of gradual sinicization and increasing vulgarization of a relatively unknown Indian bodhisattva, Ksitigarbha, into a Chinese deity of

the underworld. Such a model, the author argues, obscures the many-faceted personality and iconography of Dizang. Rejecting it, she deploys a broad array of materials (art, epigraphy, ritual texts, scripture, and narrative literature) to recomplexify Dizang and restore (as much as possible from the fragmented historical sources) what this figure meant to Chinese Buddhists from the sixth to tenth centuries. Rather than privilege any one genre of evidence, the author treats both material artifacts and literary works, canonical and noncanonical sources. Adopting an archaeological approach, she excavates motifs from and finds resonances across disparate genres to paint a vibrant, detailed picture of the medieval Dizang cult. Through her analysis, the cult, far from being an isolated phenomenon, is revealed as integrally woven into the entire fabric of Chinese Buddhism, functioning as a kaleidoscopic lens encompassing a multivalent religio-cultural assimilation that resists the usual

bifurcation of doctrine and practice or "elite" and "popular" religion. *The Making of a Savior Bodhisattva* presents a fascinating wealth of material on the personality, iconography, and lore associated with the medieval Dizang. It elucidates the complex cultural, religious, and social forces shaping the florescence of this savior cult in Tang China while simultaneously

addressing several broader theoretical issues that have preoccupied the field. Zhiru not only questions the use of sinicization as a lens through which to view Chinese Buddhist history, she also brings both canonical and noncanonical literature into dialogue with a body of archaeological remains that has been ignored in the study of East Asian Buddhism.
