Vivaldi, Genius of the Baroque Feb 09 2021 Marc Pincherle's aim is to present the life and music of Vivaldi to those generally musical readers who do not claim specialized knowledge. He has made wide use of contemporary writings which are delightfully evocative of the Venice in which Vivaldi lived and worked. He follows the events of the composer's life and then proceeds to a detailed consideration of his music, discussing Vivaldi the violinist, the symphonist, the composer of concertos, of opera and of sacred music. Finally he describes the incalculable influence that Vivaldi exercised on Italian, French, English, and German composers, and most especially on the music of Bach.

The Seed Garden Oct 17 2021 Winner of the American Horticultural Society Award for Excellence In Garden Book Publishing Winner of the Silver Medal for Best Reference from the Garden Writer's Association Filled with advice for the home gardener and the more seasoned horticulturist alike, The Seed Garden: The Art and Practice of Seed Saving provides straightforward instruction on collecting seed that is true-to-type and ready for sowing in next year's garden. In this comprehensive book, Seed Savers Exchange, one of the foremost American authorities on the

subject, and the Organic Seed Alliance bring together decades of knowledge to demystify the time-honored tradition of saving the seed of more than seventy-five coveted vegetable and herb crops—from heirloom tomatoes and long-favored varieties of beans, lettuces, and cabbages to centuries-old varieties of peppers and grains. With clear instructions, lush photographs, and easy-to-comprehend profiles on individual vegetable crops, this book not only teaches us how to go about conserving these important varieties for future generations and for planting out in next year's garden, it also provides a deeper understanding of the importance of saving these genetically valuable varieties of vegetables that have evolved over the centuries through careful selection by farmers and home gardeners. Through simple lessons and master classes on crop selection, pollination, roging, and the processes of harvesting and storing seeds, this book ensures that these time-honored traditions can continue. Many of these vegetable varieties are treasured for traits that are singular to their strain, whether that is a resistance to disease, an ability to grow well in a region for which that crop is not typically well suited, resistance to early bolting, or simply because it is a great-tasting variety. In an age of genetically modified crops and hybrid seed, a growing appreciation for saving seeds of these time-tested, open-pollinated cultivars has found a new audience from home vegetable gardeners and cooks to restaurant chefs and local farmers. Whether interested in simply saving seeds for home use or working to conserve rare varieties of beloved squashes and tomatoes, this book provides a deeper understanding of the art, the science, and the joy of saving seeds.

**The Diary of a Madman Dec 07 2020** The Diary of a Madman is a short story by Guy de Maupassant. Henri Rene Albert Guy de Maupassant (5 August 1850 - 6 July 1893) was a popular 19th-century French writer, considered one of the fathers of the modern short story and one of the form's finest exponents. A protege of Flaubert, Maupassant's stories are characterized by their economy of style and efficient, effortless denouements. Many of the stories are set during the Franco-Prussian War of the 1870s and several describe the futility of war and the innocent civilians who, caught in the conflict, emerge changed. He authored some 300 short stories, six novels, three travel books, and one volume of verse. His first published story "Boule de Suif" ("Ball of Fat," 1880) is often considered his masterpiece. He delighted in clever plotting, and served as a model for Somerset Maugham and O. Henry in this respect. His stories about expensive jewellery ("The Necklace," "La parure") are imitated with a twist by Maugham ("Mr Know-All," "A String of Beads") and Henry James ("Paste"). Taking his cue from Balzac, Maupassant wrote comfortably in both the high-Realist and fantastic modes; stories and novels such as "L'Heritage" and Bel-Ami aim to recreate Third Republic France in a realistic way, whereas many of the short stories (notably "Le Horla" and "Qui sait?") describe apparently supernatural phenomena. The supernatural in Maupassant, however, is often implicitly a symptom of the protagonists' troubled minds; Maupassant was fascinated by the burgeoning discipline of psychiatry, and attended the public lectures of Jean-Martin Charcot between 1885 and 1886. This interest is reflected in his fiction. Maupassant is notable as the subject of one of Leo Tolstoy's essays on art: The Works of Guy de Maupassant. Friedrich Nietzsche's autobiography mentions him in the following text: "I cannot at all conceive in which century of history one could haul together such inquisitive and at the same time delicate psychologists as one can in contemporary Paris: I can name a sample - for their number is by no means small, ... or to pick out one of the stronger race, a genuine Latin to whom I am particularly attached, Guy de Maupassant."
