Bodyguard: Recruit (Book 1) Jun 25 2019 A new action-packed adventure series for young fans of Alex Rider and Jason Bourne—with the first four books publishing simultaneously. Binge read for summer! Teenage kickboxing champion Connor Reeves is determined to do his father, a former special forces soldier, proud. Recruited into the ranks of a top-secret young bodyguard squad known as Guardian, Connor trains in surveillance, anti-ambush exercises, hostage survival and unarmed combat. Whatever it takes to prepare him for the dangerous missions ahead. But nothing can prepare Connor for his first assignment when the US president summons him to protect the First Daughter. For not even the Secret Service knows that a terrorist sleeper cell has been activated in America. Its mission: to take the president's daughter hostage. Combining pulse-pounding action, diabolical enemies, and an insider's knowledge of the tricks of the trade, the BODYGUARD series is the perfect target for fans of Alex Rider, James Bond, 24, and Jason Bourne. Praise for BODYGUARD "Breathtaking action . . . as real as it gets."—Eoin Colfer, author of the bestselling Artemis Fowl series "The training sequences are detailed and realistic, and Connor is relatable and likable. Featuring intense action sequences and strong friendships, this series starter will appeal to reluctant readers and fans of the 'Alex Rider' books."—School Library Journal on Recruit Your Total Solution for Math, Grade 1 Jun 29 2022 Your Total Solution for Math Grade 1 will delight young children with activities that teach addition and subtraction, place value, counting by fives and tens, measurement, and more. Standardized testing practice is included. Your Total Solution for Math provides lots of fun-to-do math practice for children ages 4-8. Colorful pages teach numbers, counting, sorting, sequencing, shapes, patterns, measurement, and more. Loaded with short, engaging activities, these handy workbooks are a parent's total solution for supporting math learning at home during the important early years.

Reports of United States Tax Court, V. 141, July 1, 2013, to December 31, 2013 Apr 15 2021 Volume of the United States Tax Court Reports containing case abstracts and opinions of the court regarding cases between July 1, 2013 December 31, 2013. Cases in each volume are listed in the prefatory table. The United States Tax Court is a federal trial court of record established by Congress under Article I of the U.S. Constitution, section 8 providing (in part) that Congress has the power to "constitute Tribunals inferior to the Supreme Court. "The Tax Court specializes in adjudicating disputes over federal income tax, generally prior to the time at which formal tax assessments are made by the Internal Revenue Service. Though taxpayers may choose to litigate tax matters in a variety of legal settings, outside of bankruptcy, the Tax Court is the only forum in which taxpayers may do so without having first paid the disputed tax in full. Parties who contest the imposition of a tax may also bring an action in any United States District Court, or in the United States Court of Federal Claims; however these venues require that the tax be paid first, and that the party then file a lawsuit to recover the contested amount paid (the "full payment rule")." The West Yorkshire Regiment in the War 1914-1918 Vol 1 May 29 2022 Another weighty regimental history, two volumes, 820 pages in all covering the record of twenty-two battalions in France, Flanders, Italy and Gallipoli (all of them served on the Western Front). When war broke out the regiment consisted of two Regular battalions (1st and 2nd), two Special Reserve (3rd and 4th) and four Territorial battalions (5th to 8th); the 1st Battalion went to France with 6th Division in September 1914, the 2nd Battalion came home from Malta to join the newly formed 8th Division (Regular) and went to France in November 1914. Both battalions remained in the same brigades (18th and 23rd) and divisions throughout the war. The four Territorial battalions each formed a 2nd and a 3rd line battalion; the four original battalions made up the 146th Brigade, 49th (West Riding) Division, arriving in France in April 1915, the second line battalions combined to make the 185th Brigade, 62nd (2nd West Riding) Division which arrived in France in January 1917. Kitchener's call to arms resulted in eleven Service battalions being raised, 9th to 18th (the 17th was formed as a Bantam battalion) and 21st; of these only 13th and 14th did not go on active service. The 21st Battalion became a Pioneer battalion in 4th Division and the 22nd was a Labour battalion which also went to France. This history records events in chronological order, the dates of the operations being described are shown in the margin as are the identities of the battalions involved. Volume 1 (x + 355pp with 18 maps and 15 b/w photos) covers the period from the outbreak of war to the end of 1916, the close of the Somme offensive and includes the Dardanelles campaign where the 9th Battalion was in action with the 11th (Northern) Division. On 1st July 1916, the first day of the Somme, the 10th Battalion attacked at Fricourt and incurred the heaviest casualties of any battalion - 710, of whom 307 were killed including the CO, 2IC, adjutant and two company commanders. More than half of them are in Fricourt New Military Cemetery which is in the No Man's Land across which they attacked and where they died. The CO (Lt Col Dickson) and his adjutant (Capt Shann) lie side by side. There is a Roll of Honour for the period covered in which the other ranks are listed alphabetically by battalions as are the Territorial battalion officers; the other officers are shown in one group in alphabetical order with the battalion number in front of the name. Although the note at the head of the officer casualty list states that the theatre in which death occurred is France and Flanders unless otherwise indicated, nonetheless 'Gallipoli' is not shown against the names of the officers of the 9th Battalion who died there, and so one is left with the wrong impression they died on the Western front.

The Book of Ezekiel, Chapters 1-24 Nov 10 2020 To most modern readers the book of Ezekiel is a mystery. Few can handle Ezekiel's relentless denunciations, his unconventional antics, his repetitive style, and his bewildering array of topics. This excellent commentary by Daniel I. Block makes sense of this obscure and often misunderstood prophet and demonstrates the relevance of Ezekiel's message for the church today.

Chemistry and Biology of 1,3-?-Glucans Jul 07 2020 This book presents a comprehensive and systematic survey on (1-3)-B-glucans. Glucans with the (1-3)-B-glucosidic linkage as a major feature, are present in most higher plants and many lower plants and microorganisms. They may occur as major structural or storage components or be formed at very specific sites in response to particular developmental events or stimuli. In many cases their functional role is a mystery, in others it is well established. Their distribution and physiological involvement indicates that they are important to fields such as agriculture and biotechnology, and may also have an impact in medicine, through their role in immunology and cancer therapy.

Experiments in Personality: Volume 1 (Psychology Revivals) Apr 27 2022 Originally published in 1960, the two volumes of Experiments in Personality report a number of experiments in psychogenetics, psychopharmacology, psychodiagnostics, psychometrics and psychodynamics, all of which formed part of the programme of research which had been developing from the late 1940s at the Maudsley Hospital. Presenting the studies together in a book, rather than the more usual route of journal articles, was itself felt to be an experiment at the time, especially given the wide area covered. The decision was deliberate because all the studies reported formed part of a larger whole, which would have been lost if published separately. Volume 1 looks at psychogenetics and psychopharmacology. Experimental and Theoretical Studies in 1,2-asymmetric Induction Aug 27 2019

Higurashi When They Cry: Eye Opening Arc Sep 20 2021 After a year at boarding school, Shion Sonozaki flees the oppressive institution and secretly returns to her hometown in the mountains, telling only her twin sister Mion of her arrival. Though the Sonozaki family has kept the sisters apart to prevent conflict over who would become the next family head, Mion and Shion have remained close - enough so that Shion can easily impersonate her identical twin. When Shion encounters Satoshi Hojo in town, he is completely taken in by her "Mion" disguise. And Shion is quite taken with him...

Surveys on Surgery Theory (AM-145), Volume 1 Nov 22 2021 Surgery theory, the basis for the classification theory of manifolds, is now about forty years old. There have been some extraordinary accomplishments in that time, which have led to enormously varied interactions with algebra, analysis, and geometry. Workers in many of these areas have often lamented the lack of a single source that surveys surgery theory and its applications. Indeed, no one person could write such a survey. The sixtieth birthday of C. T. C. Wall, one of the leaders of the founding generation of surgery theory, provided an opportunity to rectify the situation and produce a comprehensive book on the subject. Experts have written state-of-the-art reports that will be of broad interest to all those interested in topology, not only graduate students and mathematicians, but mathematical physicists as well. Contributors include J. Milnor, S. Novikov, W. Browder, T. Lance, E. Brown, M. Kreck, J. Klein, M. Davis, J. Davis, I. Hambleton, L. Taylor, C. Stark, E. Pedersen, W. Mio, J. Levine, K. Orr, J. Roe, J. Milgram, and C. Thomas.

Summer Bridge Activities, Grades K - 1 Dec 24 2021 Give your soon-to-be first grader a head start on their upcoming school year with Summer Bridge Activities: Bridging Grades K-1. With daily, 15-minute exercises kids can review rhyming and counting and learn new skills like telling time and writing complete sentences. This workbook series prevents summer learning loss and paves the way to a successful new school year. -And this is no average workbook! Summer Bridge Activities keeps the fun and the sun in summer break! Designed to prevent a summer learning gap and keep kids mentally and physically active, the hands-on exercises can be done anywhere. These standards-based activities help kids set goals, develop character, practice fitness, and explore the outdoors. With 12 weeks of creative learning, Summer Bridge Activities keeps skills sharp all summer long!

Front of the Class, Grade 1 Feb 23 2022 Front of the Class: Grade 1 supports early learning in basic skills, math, and reading. Activities address phonics, vocabulary, reading comprehension, addition and subtraction, patterns, time and money, and critical thinking. Front of the Class is the source for engaging math, reading, and language arts practice in the early grades. These 320-page, value-packed workbooks teach letters and sounds, numbers and counting, early writing skills, sorting, sequencing, vocabulary, shapes, patterns, measurement, and critical thinking skills. Short, colorful activities hold young children's attention and help build the foundation for school success.
